

Practical Skills Training and Assessment Centre (PSTAC)
Standardised Practical Skills Assessment – Guide Notes for Candidates

1. Candidates shall follow PSTAC's guidelines and the instructions and arrangements made by the PSTAC staff. The PSTAC reserves the right to reject offenders to attend the assessment and ask them to leave.
2. Candidates must bring along their **original Hong Kong Identity Cards** for verification before admission to the Practical Skills Training and Assessment Centre (PSTAC) for assessment. Candidates failing to do so will not be allowed to undergo assessment and have to contact their respective training bodies for details of the re-take arrangement.
3. Irrespective of whether this is a fresh assessment or a re-take, candidates must reach the PSTAC **on time for registration (the respective training bodies will notify candidates of the registration time)**. Latecomers may not be allowed to undergo assessment and will have to contact their respective training bodies for details of the re-take arrangement. One assessment opportunity will be deducted in case of absence. If candidates are not able to attend assessments upon confirmation of the schedules due to reasonable causes, they may submit applications for waiver of deduction of an assessment opportunity to the PSTAC through their respective training bodies.
4. Candidates must assess their medical fitness for undergoing assessment. To prevent influenza or other contagious diseases, candidates should take temperature reading beforehand and seek medical consultation as soon as possible, rather than joining the assessment, should there be a fever or symptoms of influenza. Candidates absent from assessment for health or emergency reasons (e.g. accidents) should notify their respective training bodies as early as possible to reschedule the assessment. In case of outbreak of serious infectious disease, the PSTAC will announce precautionary measures of epidemic prevention and inform candidates via training bodies. Besides, candidates may be arranged to undergo assessment on another day, if considered physically unfit to do it (e.g. sneeze or cough persistently). Report to the PSTAC staff if feel uncomfortable during the assessment.
5. Pregnant candidates in 34 gestation weeks are strongly advised to defer the assessment after delivery. They should apply for the deferral together with supporting document before the scheduled assessment date via training bodies. They can then apply for assessment within 6 months after delivery.
6. Candidates must dress properly and appropriately. The PSTAC reserves the right to refuse

those failing to do so from undergoing assessment, which involves different postures and limb movements. Long-sleeved clothes, long pants and flat sport shoes are preferred to vests, short pants, dresses and high-heel shoes to avoid embarrassment and accidents. Candidates refused entry for assessment have to contact their respective training bodies for details of the re-take arrangement.

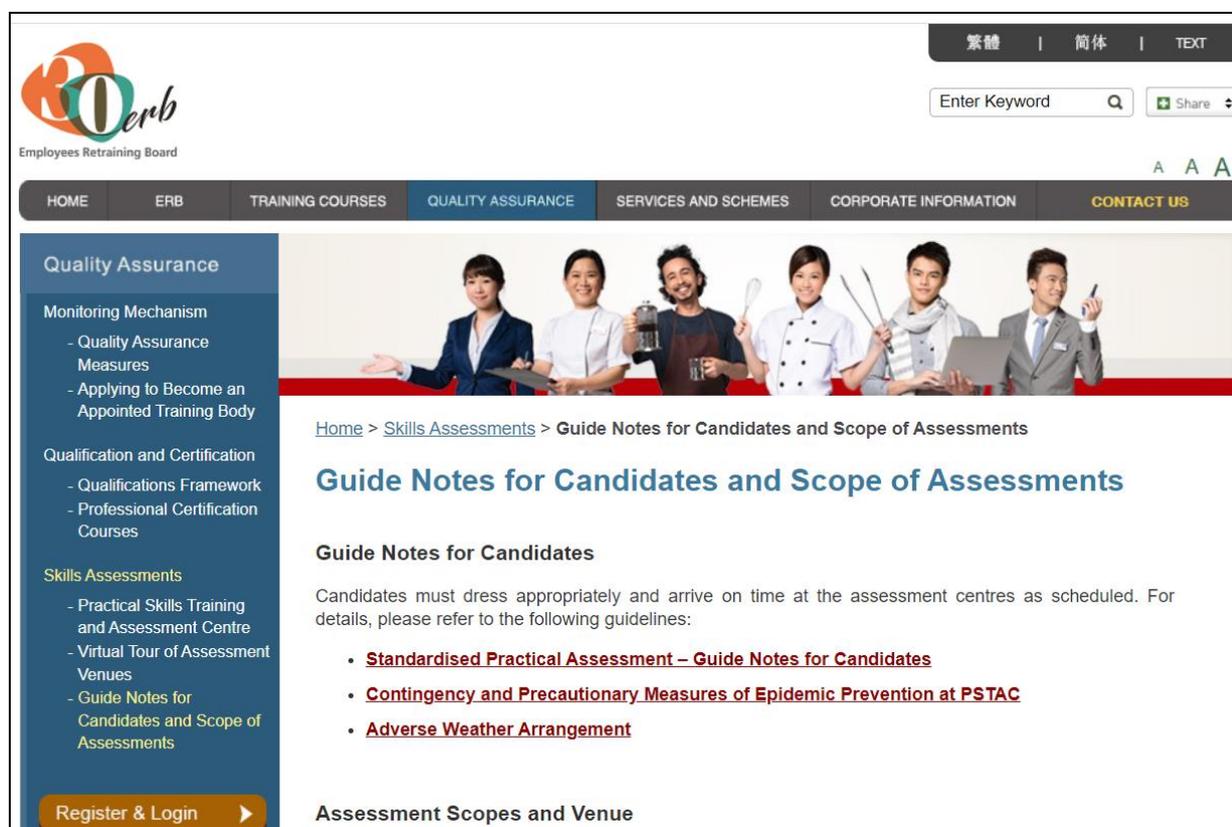

7. Candidates should consult their respective training bodies concerning the assessment process and bring the required tools (for instance, candidates should bring their own gloves for assessment under the domestic helper training course) as required. If the required assessment tools (including stationery) are to be provided by the PSTAC, candidates will not be allowed to use their own tools without prior approval. Also they should not bring invaluable personal belongings to avoid possible loss.
8. For a fair and just assessment, candidates must not provide any advantage for the PSTAC staff or assessors, or cause any nuisance/ threats in any form, or else they will be subjected to disqualification.
9. Candidates have to observe the rules and instructions set out by the PSTAC staff/ assessors including, but not limit to, the following:
 - To keep the PSTAC clean and no smoking, eating, drinking* and littering are allowed;
 - To keep quiet and speaking loudly or bad language is not allowed;
 - To switch off electronic devices such as mobile phone or tablet computer, or switch them to the “silent” mode; making or receiving phone calls is prohibited;
 - **Clean hands with alcohol sanitizer when entering the PSTAC and the assessment rooms;**
 - If need to tidy up hair and dressing, do it before entering the PSTAC;
 - When staying at the waiting room, keep quiet to wait for the arrangement of assessments. Activities involve close body contact, such as help each other to practicum, are not allowed at the waiting rooms. Should any candidates need to do such activities, they may go outside the PSTAC at the risk of missing the assessments. The assessment will not be arranged on the same day for those candidates missed the assessments;
 - No photo-taking, video-taping and voice-recording are allowed;
 - Animals, hazardous materials, trolleys and large luggage are not allowed;
 - Other than candidates, other persons are not allowed to enter into the PSTAC without approval;
 - Taking away property of the PSTAC is prohibited;
 - Upon completion of assessment, candidates should leave PSTAC as directed and do not gather at the lift lobby to wait for classmates.

*can drink water outside the PSTAC after notifying the staff

10. Some of the assessment subjects (please consult the training bodies for details) require cooperation among candidates by performing the helper role (customer/ elderly client/ patient/ assistant) in the assessment process. Helpers will not be provided by the PSTAC. Matching of helpers with candidates will be made by the PSTAC on the spot during the assessment day. Any candidates incapable of performing the helper role should apply for exemption from the PSTAC through the training body before the assessment. Any helpers involved in cheating, or behaved uncooperatively, will be disqualified.
11. **Special arrangements for particular assessments (if any) will be informed via training bodies.**
12. Candidates must complete the assessment procedure as instructed by the assessors. Performance outside the time allowed will not be considered. Candidates must turn off their electronic devices before the assessment.
13. Candidates (including the helpers) shall place the assessment equipment to the original locations as instructed by the assessors when the assessment is close to end.
14. If any candidates need early release before completing the assessment procedure for health or emergency reasons, they have to apply to the PSTAC as soon as possible. The permitted candidates may contact their respective training bodies for details of the re-take arrangement for the uncompleted parts afterwards. In the event of termination of assessment by the PSTAC on the grounds of emergency (for instance power failure, Hong Kong Observatory has issued/ hoisted Typhoon Signal No. 8 or above, accident to a candidate), arrangements in conjunction with the training bodies concerned will be made for the affected candidates for re-scheduling assessment for the uncompleted parts.
15. To enhance the service, the candidates are invited to complete a questionnaire after assessments. Those who have answered the questionnaire in the past can opt for not to do the same again in the re-takes. Besides, opinion collection box is also provided outside the waiting rooms.
16. The scheduled assessment date and time (including registration, waiting and assessment time) may be affected by sudden incident or assessment progress. The PSTAC may change the above assessment arrangement and will inform affected candidates accordingly.
17. To facilitate the candidates' enquiry, the PSTAC will notify their respective training bodies of their assessment results within 9 working days approximately upon completion of assessment. Candidates who failed in the assessments should approach their respective training bodies for detailed explanations of the failure and support for re-assessments.

18. Each candidate has two chances of re-take. All re-takes have to take place within half a year upon completion of the first assessment. The PSTAC will take the initiative to arrange re-takes for unsuccessful candidates or candidates absent from assessments. Candidates' own applications for re-takes are therefore unnecessary. However, if candidates reject the re-takes 3 times, the PSTAC will stop making re-take arrangement and the concerned candidates need to apply for re-take via training bodies within half a year.
19. When the Hong Kong Observatory has issued/ hoisted the Black Rainstorm Warning or Tropical Cyclone Warning Signal No. 8 or above, the PSTAC may cancel scheduled assessments or make special arrangements. The relevant measures are at **Annex** – Arrangements of Assessment during Adverse Weather.
20. To protect the privacy of the candidates and ensure the confidentiality of the assessment process, cameras are not installed at the assessment venues and thus videos will not be taken during the assessments.
21. Virtual tour, photos of various assessments, and “Common Mistakes” videos (selected courses only), can be viewed on the ERB website :

(http://www.erb.org/quality_assurance/skills_assessments/GuidesNotes_Candidates_Scopes/en/)

The screenshot shows the ERB website interface. At the top right, there are language options (繁體, 简体, TEXT) and a search bar with the text 'Enter Keyword' and a 'Share' button. Below the search bar is a navigation menu with links: HOME, ERB, TRAINING COURSES, QUALITY ASSURANCE (highlighted), SERVICES AND SCHEMES, CORPORATE INFORMATION, and CONTACT US. The main content area is titled 'Quality Assurance' and features a banner image of seven diverse professionals. Below the banner, the breadcrumb trail reads 'Home > Skills Assessments > Guide Notes for Candidates and Scope of Assessments'. The main heading is 'Guide Notes for Candidates and Scope of Assessments'. Underneath, there is a sub-heading 'Guide Notes for Candidates' followed by a paragraph: 'Candidates must dress appropriately and arrive on time at the assessment centres as scheduled. For details, please refer to the following guidelines:'. A bulleted list follows, containing three items: 'Standardised Practical Assessment – Guide Notes for Candidates', 'Contingency and Precautionary Measures of Epidemic Prevention at PSTAC', and 'Adverse Weather Arrangement'. At the bottom of the page, there is a 'Register & Login' button and a section titled 'Assessment Scopes and Venue'.
