

# LOVE IT UPGRADING SCHEME

No restriction on  
educational attainment

Free of charge

Over 50 training  
courses

## Upskilling for Progress in the Workplace

Application Period : from now to 31 December 2024

 **Enrol Now**

The Employees Retraining Board (ERB) launches the “Love IT · Upgrading Scheme” with over 50 innovation and technology-related training courses spanning across domains of “New Digital Skills” and “Technology Applications in Industries”, with a view to encouraging lifelong learning of new digital skills among the public and supporting the digital transformation of industries.

## Service Targets

- Eligible employees of Hong Kong aged 15 or above<sup>1</sup>
- No upper limit on educational attainment
- Unemployed, non-engaged and serving employees can apply for training courses under the Scheme, applicants should meet the entry requirements of individual courses

## Course Categories

### ○ New Digital Skills

Training courses cover Knowledge and Applications in Artificial Intelligence; Business Applications of Generative Artificial Intelligence; Knowledge and Applications in Blockchain Technology; Cloud Computing and Applications; Data Analytics and Applications; Robotic Process Automation; Virtual Reality Application, Python Web Framework and Mobile Application Development; Creative Digital Media Design, etc.

### ○ Technology Applications in Industries

Training courses cover Building Information Modelling (BIM); Practical Skills for Energy Efficiency of Building Services Installation; 3D Computer-aided Drafting (SketchUp) for Construction; Online Business; Social Media and Digital Marketing; 3D Printing Technology; New Digital Technology Commercial Application, etc.

## Application Period

- 10 April to 31 December 2024

## Training Period

- On or before 31 March 2025

## Application Arrangement

- The Scheme includes designated Placement-tied Courses<sup>2</sup> and Non-placement-tied Courses (including Skills Upgrading Courses and Generic Skills Courses)
- Applicants can enrol in no more than 2 Placement-tied Courses and a total of no more than 150 hours of Non-placement-tied Courses within 1 year<sup>3</sup>

## Enquiry and Enrolment

- For details of the Scheme, please call ERB Hotline at 182 182 or contact training bodies of ERB<sup>4</sup>
- For enrolment, please download the Application Form and Guidelines

1 Referring to those who are lawfully employable and not subject to conditions of stay, including Hong Kong permanent residents and new arrivals.

2 Those unemployed or non-engaged are eligible to apply for Placement-tied Courses. Eligible trainees who have completed a Placement-tied Course (with an attendance rate of 80%) will be disbursed a retraining allowance and provided with a 3-6 month placement follow-up service. The maximum amount of retraining allowance payable monthly to a trainee is \$8,000.

3 Including enrolled but no show, or low attendance cases.

4 For the latest information and details of the Scheme, please refer to the website of the Scheme or contact training bodies of ERB. Class arrangements are handled by training bodies and in case of any changes, the latest announcements of training bodies shall prevail. ERB reserves the right to make final decisions regarding the Scheme and course-related arrangements.

# New Digital Skills Courses

Certificate in Virtual Reality Application Development Assistant^

Certificate in Python Web Framework Development Assistant^

Certificate in Frontend Web Developer^

Certificate in Backend Web Developer^

Certificate in Mobile Application Developer Training^

Certificate in Software and Artificial Intelligence Application Developer Training^

Certificate in Junior Python Data Analyst^

Certificate in Creative Digital Media Design and Production Assistant Training^

Certificate in Cyber Security Technician Training^

Certificate in Multimedia Web Design and Interactive Programming (Part-time)

Certificate in iPhone and iPad Application Development (Part-time)

Certificate in Android Mobile Application Development I (Part-time)

Certificate in Android Mobile Application Development II (Part-time)

Certificate in Python Programming (Part-time)

Certificate in Knowledge and Applications of Artificial Intelligence (Part-time)

Certificate in Artificial Intelligence Design, Implementation and Application (Part-time)

Certificate in Blockchain Application Development (Part-time)

Certificate in Knowledge and Applications of Blockchain Technology (Part-time)

Certificate in Cloud Computing and Applications (Part-time)

Certificate in Understanding Data Analytics and Applications (Part-time)

Certificate in Data Analytics Skills I (Part-time)

Certificate in Data Analytics Skills II (Part-time)

Certificate in Robotic Process Automation (RPA) Application (Part-time)

Certificate in Mobile Device Users Support for IT Assistant (Part-time)

Foundation Certificate in Tablet Computer Digital Drawing and Design (Part-time)

Certificate in Business Applications of Generative Artificial Intelligence (Part-time)

# Technology Applications in Industries Courses

Foundation Certificate in Building Information Modelling (BIM) Revit (Architecture) I (Part-time)

Certificate in Building Information Modelling (BIM) Revit (Architecture) II (Part-time)

Foundation Certificate in Building Information Modelling (BIM) Revit MEP I (Part-time)

Certificate in Building Information Modelling (BIM) Revit MEP II (Part-time)

Certificate in Building Information Modelling (BIM) Revit MEP III (Part-time)

Foundation Certificate in Practical Knowledge for Building Information Modelling (BIM) Viewer (Part-time)

Foundation Certificate in Practical Skills for Energy Efficiency for Building Services Installation I (Part-time)

Foundation Certificate in Practical Skills for Energy Efficiency for Building Services Installation II (Part-time)

Certificate in Practical Skills for Energy Efficiency for Building Services Installation III (Part-time)

Foundation Certificate in 3D Computer-aided Drafting (SketchUp) for Construction (Part-time)

Foundation Certificate in Installation and Design of Solar Photovoltaic (PV) System (Part-time)

Foundation Certificate in Application Knowledge of Network Technologies in Smart City for Electrical & Mechanical Industry (Part-time)

Foundation Certificate in Online Business (Social Media Marketing) (Part-time)

Foundation Certificate in Online Business (Social Media Marketing) (Mixed-mode Learning) (Part-time)

Certificate in Online Business (KOL Marketing Strategies) (Part-time)
